PROFESSIONAL SUMMARY

SAP Consultant | Business Analyst

Result-driven SAP Consultant, Data Analyst, and Supply Chain Specialist with 3 years of experience in SAP MM, SAP SD, SQL, and Data Analytics. Skilled in supply chain operations, customer support, and warranty management for global clients. Proven expertise in ERP systems, data-driven decision-making, and cross-functional collaboration to optimize business processes.

WORK EXPERIENCE

Associate Consultant | ITC Infotech / KONE | Chennai, Tamil Nadu, India **Dec 2024 – Present**

- Managed end-to-end supply chain operations for elevator spare parts using SAP MM and SAP SD.
- Handled additional material requests, warranty claims, and maintained/upgraded Bills of Materials (BOM) for operational efficiency.
- Coordinated with US-based clients to ensure timely delivery of materials and effective communication.
- Exposure to demand forecasting and Material Requirements Planning (MRP) for optimizing inventory levels.
- Streamlined workflows using Microsoft Planner, Salesforce, SAP ERP, Excel, and Teams.
- Resolved customer support tickets and warranty claims via Fresh desk, improving documentation and turnaround time.
- Collaborated with cross-functional teams to improve SAP modules and enhance system performance.
- Managed end-to-end procurement and order management processes, serving as a Supply Line Manager to ensure timely and accurate delivery of materials to project sites.

SAP Functional Consultant | NLC India Limited, Cuddalore, India **Mar 2024 – Dec 2024**

- Configured SAP systems in SPRO to align with business requirements across MM and SD modules.
- Supported procurement workflows, including RFQ processes, Purchase Requisitions (PR), and Purchase Orders (PO).
- Gained hands-on exposure to RICEF objects (Reports, Interfaces, Conversions, Enhancements, Forms) for customisation.
- Supported SAP data migration projects, ensuring accurate transfer from legacy systems to SAP.
- Assisted in developing and optimising SQL-driven SAP ABAP programs for data extraction, transformation, and reporting.
- Participated in User Acceptance Testing (UAT) to validate business processes before go-live.
- Improved ERP system reliability through SQL optimisation and performance tuning.

Technical Support Analyst | CMS IT Services, Navi Mumbai, India **May 2023 – Sep 2023**

- Delivered first-contact resolution for technical support issues with a 95% success rate.
- Provided network and software troubleshooting.
- Enhanced operational workflows improving efficiency by 15%.
- Assisted in hardware diagnostics and issue resolution.
- Maintained high customer satisfaction through effective communication.

INTERNSHIP

SQL Intern | SKOLAR, Bengaluru, India **Feb 2024 – Apr 2024**

- Developed and optimized complex SQL queries in PostgreSQL/MySQL for data extraction, transformation, and predictive analytics.
- Managed databases and collaborated via Git for version control in team-based projects.

Data Analyst Intern | Senchola, Bengaluru, India **Sep 2023 – Dec 2023**

- Conducted business data analysis using SQL, Power BI, and Excel to support strategic decision-making.
- Designed interactive dashboards and improved SQL query performance for faster reporting.

PROJECTS

Data Cleaning in SQL (Netflix Dataset) – (Link)

- Transformed raw Netflix data into PostgreSQL into structured, analysis-ready tables.
- Improved query efficiency and enhanced data accuracy for analytics

Spotify Data Exploration (SQL) – (Link)

- Analyzed global Spotify user data using PostgreSQL and MySQL Server.
- Discovered usage patterns and provided insights into streaming behaviors.

Heart Disease Prediction (Machine Learning) – (Link)

- Built a predictive model for cardiovascular diseases using K-Nearest Neighbors.
- Utilized Python libraries (Seaborn, Matplotlib) for visualization and evaluation.

Power BI Dashboard – (PwC) – (Link)

- Designed dashboards to analyze customer behavior, agent performance, and gender balance.
- Delivered insights to support diversity, equity, and operational strategies using 2023–2024 data.

Power BI Dashboard – (British Airways) – (Link)

- Visualized and analyzed British Airways datasets using Python, Machine Learning, and Power BI.
- Extracted insights to enhance decision-making and operational performance.

EDUCATION

BE (Computer Science) **2018 - 2022**

St. Joseph College of Engineering | CGPA: 8.17 **Tamil Nadu, India**

TECHNICAL SKILLS

- SAP Modules: SAP MM, SAP SD, SAP ERP, SAP S/4HANA, SAP BI/BW
- Programming: SQL, ABAP, JavaScript, React.js, Node.js
- Analytics Tools: Power BI, Excel • Databases: MySQL, PostgreSQL
- Tools: Salesforce, Microsoft Planner, Microsoft Teams, Freshdesk

SOFT SKILLS

- Communication
- Customer Relationship Management
- Team Collaboration
- Analytical Thinking
- Problem Solving
- Process Optimization
- Time Management
- Attention to Detail
- Adaptability
- Emotional Intelligence

CERTIFICATION

- **Data Analyst Certification - Senchola (Link)**
- **ABAP for SAP Users -LinkedIn (Link)**
- **Career Essentials in Data Analysis - Microsoft & LinkedIn(Link)**
- **SAP BI/BW, MM, SD, Production Planning - LinkedIn (Link)**
